

Tastes great, more filling.

You work hard on your fitness goals, and that includes eating healthy. But sometimes it seems temptation is everywhere. Add GNC's Hunger Support Powder to your regimen. It helps you feel fuller, longer – and it tastes delicious!

- Excellent source of fiber, including Litesse®, which is clinically shown to reduce calorie consumption when taken before a meal^{†*}
- Increases your feeling of fullness and satiety so you eat less and wait longer between meals*
- Provides an effective aid to eliminate unwanted toxins from the body and supports digestive health*
- Includes Bimuno® Prebiotic, which improves digestive comfort and bloating in as little as 7 days**

[†] In three separate placebo-controlled, clinical trials involving 86 participants, consumption of 12.5 g of Litesse® Fiber in a pre-meal beverage resulted in a statistically significant reduction in caloric intake in a subsequent test meal (lunch). The subjects' breakfast meal was controlled, as was the nutritional profile of the test beverage.

^{*} In a randomized, double-blind, placebo-controlled, crossover trial, where 83 individuals took a daily dose of 1.37 g B-GOS® and placebo for 14 days each, during which B-GOS® subjects experienced statistically significant improvements in bloating and digestive comfort at the 7- and 14-day time points, compared to placebo.

KEEP OUT OF REACH OF CHILDREN.

Store in a cool, dry place.
